Senior dog route check

Fill this page in by hand. Use the example on page 2 for reference.

DOG: _____ **DATE:** _____

Bed to water

Water to the yard door

Yard door to toilet spot

Another frequently used route

What happened after the change

What to share with the vet

Use the worksheet to describe observations and bring your notes when you speak with your veterinarian.

Senior dog route check

Completed example with fictional details.

DOG: Example **DATE: Nov 14**

Bed to water

Slipped at the tile turn. Put down a stable runner. Check the same turn tomorrow.

Water to the yard door

Paused in the dim hallway at dusk. Turned on the hall light before the next trip.

Yard door to toilet spot

Stopped at the loose mat by the step. Removed the mat and checked the route again.

Another frequently used route

On the way to the couch, the dog went around a basket. Moved the basket out of the path.

What happened after the change

On the next bed-to-water trip, the runner stayed flat and the dog used it.

What to share with the vet

Write down when the slipping started, where it happens, and how often you see it.

Use the worksheet to describe observations and bring your notes when you speak with your veterinarian.
